

# MSE2025 Series Slip Rings

Special servo slip ring designed for Yaskawa, Panasonic, Mitsubishi, Siemens servo motor with stable and reliable performance. It can combine with any power, switching signal or bus signal. For example: Profibus, Profinet... It can also be combined with rotary joint. Inner wiring and shield structure can totally prevent the mistake of encoder error. Gold-gold contact, high performance, many years of experience for Simens/Heidenhain control system.
